Memory from BHS: I remember the fun we had in the plays and musical productions. We all seemed to be involved in so many things. How did we do it? We used to take choir

Did Mrs. Green suspect there was a party in progress?

Occupation(s): There have been several over the years: communications director for computer company, radio reporter and news director, government public information officer, and photographer. Someday I'll figure out what I want to do when I grow up.

Hobbies: Reading, writing, photography, computer programming, camping (occasionally), and PUN-ishing my two daughters. About half their time is taken up by groaning, "Oh, DAD!"

Children [Grandchildren]: Elizabeth (12), Katie (5)

Major events in life: Learning how much fun and how intimidating children (and the responsibility) can be. Many New York meetings have taught me to jay-walk with the best and I've memorized enough of the subway system to get around without a map. (Is this something to be proud of?)

Memory from BHS: My most enduring memory is the sound of the wind howling around the windows of the little room where the debate class met on the third floor. Concentrating on debate topics was difficult because I kept wondering when somebody in the chemistry lab next door would blow the third floor off the building. Also trying to think up legitimate-sounding reasons why I had to leave early—particularly in the spring.

Memory from BHS: Main study hall minutes—no, seconds—before the morning tardy bell. Dave Hoover (as often was his habit) raced towards his seat. Miss Oglesbee muttered behind her desk and watched the clock. If you remember, with her it wasn't good enough to just be in the room at the sound of the bell; we had to be in our seats. (Believe me, I was counted tardy enough to know.) I had made it on time that morning and watched with the rest of the class to see if Dave would make it. The room was silent and all eyes were on Dave. Would he make it? He ran to his desk and dropped into his seat. Suddenly out of the absolute silence, Roger Leasure leaped to his feet, gave the umpire's sign, and yelled "Safe!" The study hall roared with laughter. Even Miss Oglesbee chuckled—and then warned Roger not to try it again.

Hobbies: Probably the same as 1965! Did add scuba diving (95' in Mexico). I've done all the sports I wanted to do as a kid, but not available at BHS. Ballet and yoga at Yale with grad students (28 years). Hunt seat riding lessons (at 31). Sail with my kids in a Zuna (like a Sunfish) I received for my 40th. Still skiing. Bike riding with a kid still on the back, and into aerobics. Reduced to walking and praying for mobility with each passing year. Did a musical in local theatre at 31. Took me a few extra years to get these endeavors out of my system.

Children [Grandchildren]: Lillian (9), Tess (4)

Major events in life: Who doesn't consider their life one big event! I did go along pretty par until 1978 with the end of a marriage, the death of my father, and the death of my mother eight months later. Remarried later that year. Daughter born 18 months later. Back on par. I regret to admit only in hindsight—Vietnam. I feel I owe such an apology to all the guys from BHS who served and died, and are still serving. It's taken so many years. I will never forget showing my family Kenny Lovelace's name engraved on The Wall in Washington, D.C. How could we have been so sheltered and given so many without question? I have thought of you, Gary Homan, so often. When I look back it was all so wonderful, fun, crazy. Amazingly we survived playing tag in cars through Rutan Park, ice skating, record hops, Shiveleys. I will never forget that first pizza Mike Silverstein

brought to our house. Joe Wood, Skip Humphries, Jim Hilliker, Charles Meyers, Sally Howell who came to my 3rd birthday party. Judy Rudasill who, dancing to *Susie Snowflake* in first grade pirouetted off the stage. The days when little more than fifty cents would put a gallon of gas in your car and cigs in our mouths. They were sweet and wonderful times. We were a great class of 1965. BHS I loved you even though I never was a cheerleader. "Only for the balcony," my dad said!

Occupation(s): Certified hypnotherapist and counsellor; owner of Trim-Life**Hobbies:** Snow skiing, writing**Children [Grandchildren]:** Ryan (16) [None]

Major events in life: The most meaningful event was the birth of my son 16 years ago and recently marrying the most wonderful and thoughtful man I've ever known. I began my professional life as a junior high teacher for 10 years, after which I changed careers and became a sales rep for a radio station for 7 years. Now I'm the owner of my own human potential counseling business and pursuing my degree in psychotherapy. I'm also active in the animal rights movements and involved in bettering the understanding of the global environmental movement. My plans for the next 25 years are to realize the goals I've set for myself in my business and personal life and to extend my travels to the farthest corners of the world!

Memory from BHS: Running away from home! Jumping out of bathroom window to catch runaway car driven by Cheri Wilder and Steve Earick.

Occupation(s): Office manager/secretary since 1972 for Farmers Insurance; took time out for manicuring school and my own business in nails**Hobbies:** Walking, reading, spending time with family**Children [Grandchildren]:** David (11)

Major events in life: Moved to Arizona and married in 1968. Helped put husband through college; then I went to school for a couple of semesters. My husband has been in radio/tv most of the time, but we started our own advertising agency which was successful, but nerve-wracking. It lasted about three years. He went back to radio and I went back to Farmers Insurance. We bought our third house in 1977 and had our first and only child in 1978. Our son is now eleven and we're still in the same house. I'm spoiled by the Tuscon weather and really love it here. This is Easter weekend and we're going to have a BBQ. The pool is heated enough to take our first swim of the season. Today the temperature was 90 degrees. We all enjoy perfect health. I do miss the springtime in Ohio. I'm not sure if we'll be able to make the reunion; if we don't, my thoughts are with you all!

Memory from BHS: One morning in a BIG hurry I inadvertently sprayed my hair with spray starch instead of hair spray. I didn't have time

to wash it out, so I hurried out the door—it was raining! In those days not only did we girls wear our hair all teased up, but it was also not COOL to use an umbrella! I'm not sure what I expected, but I went to school anyway with drenched hair. The spray starch turned white and gummy! It's one of those experiences that takes 25 years to finally admit and be able to chuckle about. (P.S.: I've been a blond for all these years and I'm definitely having a lot of fun.)

Major events in life: My husband was transferred from Cleveland to Wichita. Soon after we moved here the place where I was working part-time was robbed and I was shot. I still have the bullet in my chest as it did not hit anything vital and removing it would have meant unnecessary surgery. The robbers, who got only thirty dollars in cash and some checks, were never caught. Living here, we've grown to like western and southwestern things. My husband loves to read about the mountainman era. We also enjoy travelling to Wyoming, Colorado, New Mexico, and Arizona.

Memory from BHS: Going to school half a day and working half a day; no gym classes; being selected for honor society.

Memory from BHS: Of all the events that happened in high school, the

one event that has never faded is the assassination of President Kennedy when we were juniors. I remember "fondly": Mr. Bewley throwing the "two-ton" dictionary across the room to get someone's attention (it did!). "Uncle" Paul's dreaded handshake, Miss Otte's

Remus et Romulus, Mr. Hurley's study halls (sure cure for talking: holding dictionaries with arms outstretched—boy I bet that hurt),

the "Little Giants", Miss Newell's handkerchiefs, Mr. Vicario's "patience" during play rehearsals, Mr. Weaver's great musicals, Mr. Geist's biology labs, Mr. McCracken's Student Senate meetings, and Mr. Stewart and Mrs. Angle's "guiding" us into our future.

Major events in life: Becoming a mother of three (one set of twins); working my way up in the financial industry and achieving a vice presidency; being named training director for the state of Florida; changing careers after fifteen years in banking and getting into the computer industry.

Memory from BHS: Miss Ogelsbee confronted me in the hall one morning as John Matthews was giving me a kiss. She said she was "going to get me" for hanging outside her door every morning with John and smooching. She scared me, but not enough to make me give up the body contact with John every morning. We just did it further from her door.

Louise Emmons and I (along with David Elliot) were the entertainment for Homecoming.

Neither Lou nor I had dates (you guys didn't get as tall as we were until our senior year) so we had to go to the dance, do our thing, and leave. We wound up at a

party at Mike Silverstein's parents' factory and had a couple of Sloe Gin fizzes. Neither of us was accustomed to drinking and I remember Louise running around yelling, "I want to be Catholic." I called an old boyfriend's mother and told her exactly what I thought of her. I remember a lot more about the evening, which to this day makes me laugh, but I am not about to tell it here. I don't know about Lou, but I still can't drink Sloe Gin.

"Thanks for the Memories"

Those are Bob Hope's words, but the sentiment is mine. Thanks to everyone who helped put this information together. The project turned out to be a lot of fun. We remember the good times more than the bad and that's fortunate because the good times are more fun to write about.

After running this information past a computer spelling checker and proofreading it myself (twice), I handed it over to my wife, Phyllis. She pointed out several additional errors and also kindly made some recommendations that resulted in a better looking list. Any errors that remain are mine.

I hope you enjoy reading this as much as I enjoyed compiling it. My only regret is that I didn't have the time necessary to follow up and wrench stories out of those who planned to respond but kept putting it off.

But we'll be doing this again.

And I'll be back.

Bill Blinn
